Electric height adjustable SitStand desks

Albion chairs

2018

New from albion

An electric height adjustable SitStand desk allows office and home workers to enjoy the ergonomic and health benefits of both sitting and standing while they work. Using a SitStand desk promotes good blood circulation, prevents problems associated with prolonged sitting and can result in increased alertness and activity levels. It also helps fight fatigue making it easier to focus on work tasks, improving mood, and productivity levels.

Our electric **SitStand** offering comes in two frame footprints (1200mm and 1600 wide by 800mm deep) and is available in an elegant silver finish. Our desk tops are available in 1200, 1400, 1600 and 1800 x 800mm to suit your requirements. We offer 4 colours: white, maple, light oak and beech. Other colours are available on request

There are 3 supply options: without top/unassembled, without top/assembled and assembled with a top. The first two scenarios allow you to provide your own top or to reuse the end-users desk top.

We are also able to provide a range of accessories to complement the **SitStand** desks.

These include a choice of 3 monitor arms (good, better, best), a sliding/retractable CPU holder, a desk mounted document holder and a couple of footrests. Please note we can also manufacture made to measure foot platforms if required.

As with our chairs, we provide a five year guarantee for the SitStand desks. Both the frame and tops are held in stock. We are also able to provide other tops on a 2 week lead time

Our **SitStand** desks and accessories can be delivered and installed direct to your end user.

Easy to use mechanism,
ideally placed so the desk can be
adjusted to the required height

Why buy an electric height adjustable SitStand desk…

Many studies show that sitting for more than 6 hours a day is linked to being overweight, obese, having type 2 diabetes, some types of cancer and much worse.

With technology such as computers, television and video consoles changing our work and leisure habits, it seems we're spending increasing amounts of our lives sitting down. There is no doubt this seriously impacting the nation's health. In fact, one of the largest pieces of research on the topic to date found that a sedentary lifestyle can cause:

- 112% increase in risk of diabetes
- 147% increase in cardiovascular events
- 90% increase in death caused by cardiovascular events
- 49% increase in death from any cause

An electric height adjustable **SitStand** desk gives you the option to sit or stand throughout the day, keeping your muscles active and reducing the risk of aches and pains caused by repetitive movements.

Benefits of SitStand Desk

- Increased alertness, concentration and productivity
- Improved blood circulation
- Relief from muscle ache caused by static posture
- Flexibility to adjust the working position to the task at hand
- Burn more calories

Technical specification

- Input – 240V
- Range of movement (stroke) 400mm: 700mm to 1100mm measured to the underside of the desk top
- Load capacity – 100kgs, max speed 16mm/second
- Duty cycle: - don't operate for 15 minutes for every 15 actions to prevent overheating of motor
- Operation environment: - for indoors – -5~40 degrees Celsius

Our **SitStand** desk comes with a five year guarantee, the frame is in stock and the top can be provided on a week lead time. We do however stock maple, light oak, beech and white colour for a 2 week lead time.

Our **SitStand** desk and accessories can be delivered and installed direct to your end user – pricing is dependent on whether we have a bad back chair to deliver at the same time or not.

Other Wood colour samples are available upon request, and if you need any help or advice planning your space, do not hesitate to call:

Workstation assessments

SPYNAMICS is synonymous with ergonomic and orthopaedic seating in the workplace. The result of a collaboration in 1999 between Albion Chairs and a leading osteopath, **SPYNAMICS** was developed for users with chronic bad backs. Since then, it has continued to evolve as practitioners and users have contributed to our knowledge pool.

With our dealers, we have extended our workstation assessment service to provide an at-your-desk evaluation. We can provide a made to order chair by taking your seated measurements. This includes looking at desk layout, monitor height, keyboard and mouse accessibility and footrest requirement. We also advise on the need for an electric sit/stand desk.
